

FOR IMMEDIATE RELEASE

**DELAWARE ENHANCED GLOBAL DIVIDEND AND INCOME FUND
ANNOUNCES CHANGE TO PORTFOLIO MANAGEMENT TEAM**

PHILADELPHIA, JUNE 19, 2014 — Today, Delaware Enhanced Global Dividend and Income Fund (NYSE: DEX) (the "Fund") announced that Christopher M. Testa has been appointed as a portfolio manager for the Fund. Mr. Testa joins Babak Zenouzi, Damon J. Andres, D. Tysen Nutt Jr., Edward A. "Ned" Gray, Liu-Er Chen, Wayne A. Anglace, Roger A. Early, Thomas H. Chow, Paul A. Matlack, Craig C. Dembek, and John P. McCarthy in making day-to-day investment decisions for the Fund.

Christopher M. Testa, CFA, senior vice president, senior portfolio manager, joined Delaware Investments in January 2014 as a senior portfolio manager in the firm's corporate credit portfolio management group. He helps manage both investment grade and high yield corporate credit. Prior to joining the firm, Testa worked as a portfolio manager who focused on high yield credit at S. Goldman Asset Management from 2009 to 2012 and Princeton Advisory Group from 2012 to 2013. From 2001 to 2009, he served as head of U.S. credit at Drake Management, and prior to that he was head of credit research and a high yield portfolio manager at Goldman Sachs Asset Management. Testa has more than 20 years of experience analyzing and investing in high yield and distressed credit. He earned his bachelor's degree in economics, with a minor in government, from Hamilton College, and an MBA in finance with a concentration in investments from The Wharton School of the University of Pennsylvania.

The Fund's primary investment objective is to seek current income, with a secondary objective of capital appreciation. The Fund invests globally in dividend-paying or income-generating securities across multiple asset classes, including but not limited to: equity securities of large, well-established companies, securities issued by real estate companies (including real estate investment trusts and real estate industry operating companies), debt securities (such as government bonds; investment grade and high risk, high yield corporate bonds; and convertible bonds), and emerging market securities. The Fund also utilizes enhanced income strategies by engaging in dividend capture trading, option overwriting, and realization of gains on the sale of securities, dividend growth, and currency forwards.

Under normal market conditions, the Fund will invest: (1) at most 60% of its net assets in securities of U.S. issuers; and (2) at least 40% of its net assets in securities of non-U.S. issuers, unless market conditions are not deemed favorable by the Manager, in which case, the Fund would invest at least 30% of its net assets in securities of non-U.S. issuers. In addition, the Fund utilizes leveraging techniques in an attempt to obtain higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted, and if necessary, a return of capital.
