## Delaware Enhanced Global Dividend and Income Fund announces change to portfolio management team

Today, Delaware Enhanced Global Dividend and Income Fund (the “Fund”), a New York Stock Exchange–listed closed-end fund trading under the symbol “DEX,” announced that Ty Nutt, senior portfolio manager and team leader for Delaware Management Company’s Large-Cap Value team, will retire on July 15, 2019, after 14 years with the firm. Mr. Nutt has been a member of the Fund’s portfolio management team since 2007. Senior portfolio manager Nik Lalvani will succeed Nutt as the Large-Cap Value team leader, effective immediately. Nutt will remain an active member of the Fund’s portfolio management team through his retirement date. The other members of the Fund’s portfolio management team are Roger Early, Babak Zenouzi, Damon Andres, Wayne Anglace, Liu-Er Chen, Craig Dembek, Edward Gray, Adam Brown, Paul Matlack and John McCarthy.

The Fund’s primary investment objective is to seek current income, with a secondary objective of capital appreciation. The Fund invests globally in dividend-paying or income-generating securities across multiple asset classes, including but not limited to: equity securities of large, well-established companies; securities issued by real estate companies (including real estate investment trusts and real estate industry operating companies); debt securities (such as government bonds; investment grade and high risk, high yield corporate bonds; and convertible bonds); and emerging market securities. The Fund also uses enhanced income strategies by engaging in dividend capture trading; option overwriting; and realization of gains on the sale of securities, dividend growth, and currency forwards. There is no assurance that the Fund will achieve its investment objectives.

Under normal market conditions, the Fund will invest: (1) at most 60% of its net assets in securities of U.S. issuers; and (2) at least 40% of its net assets in securities of non-U.S. issuers, unless market conditions are not deemed favorable by the Manager, in which case, the Fund would invest at least 30% of its net assets in securities of non-U.S. issuers; and 3) the Fund may invest up to 25% of its net assets in securities issued by real estate companies (including real estate investment trusts and real estate industry operating companies). In addition, the Fund utilizes leveraging techniques in an attempt to obtain higher return for the Fund.

### About Macquarie Investment Management
