Distribution declaration

Delaware Investments[®] Dividend and Income Fund, Inc. announces distributions

Today, Delaware Investments Dividend and Income Fund, Inc. (the “Fund”), a New York Stock Exchange–listed closed-end fund trading under the symbol “DDF,” declares a monthly distribution of \$0.0911 per share. The monthly distribution is payable July 26, 2019 to shareholders of record at the close of business on July 19, 2019. The ex-dividend date will be July 18, 2019.

The Fund is a diversified closed-end fund. The primary investment objective is to seek high current income; capital appreciation is a secondary objective. The Fund seeks to achieve its objectives by investing, under normal circumstances, at least 65% of its total assets in income-generating equity securities, including dividend-paying common stocks, convertible securities, preferred stocks, and other equity-related securities, which may include up to 25% in real estate investment trusts (REITs) and real estate industry operating companies. Up to 35% of the Fund's total assets may be invested in nonconvertible debt securities consisting primarily of high-yield, high-risk corporate bonds. In addition, the Fund utilizes leveraging techniques in an attempt to obtain a higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted, and if necessary, a return of capital. A return of capital may occur for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with ‘yield’ or ‘income’. Even though the Fund may realize current year capital gains, such gains may be offset, in whole or in part, by the Fund's capital loss carryovers from prior years.

Currently under the Fund's managed distribution policy, the Fund makes monthly distributions to common shareholders at a targeted annual distribution rate of 10% of the Fund's average net asset value (“NAV”) per share. The Fund will calculate the average NAV per share from the previous three full months immediately prior to the distribution based on the number of business days in those three months on which the NAV is calculated. The distribution will be calculated as 10% of the prior three month's average NAV per share, divided by 12. The Fund will generally distribute amounts necessary to satisfy the Fund's managed distribution policy and the requirements prescribed by excise tax rules and Subchapter M of the Internal Revenue Code. This distribution methodology is intended to provide shareholders with a consistent, but not guaranteed, income stream and a targeted annual distribution rate and is intended to narrow any discount between the market price and the NAV of the Fund's common shares, but there is no assurance that the policy will be successful in doing so. The methodology for determining monthly distributions under the Fund's managed distribution policy will be reviewed at least annually by the Fund's Board of Trustees, and the Fund will continue to evaluate its distribution in light of ongoing market conditions.

You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's managed distribution policy. The amounts and sources of the

Fund's distributions to be reported will be estimates and will not be provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

About Macquarie Investment Management

Macquarie Investment Management, a member of Macquarie Group, includes the former Delaware Investments and is a global asset manager with offices throughout the United States, Europe, Asia, and Australia. As active managers, we prioritize autonomy and accountability at the team level in pursuit of opportunities that matter for clients.
