DELAWARE INVESTMENTS GLOBAL DIVIDEND AND INCOME FUND, INC. ANNOUNCES EXPIRATION OF TENDER OFFER

PHILADELPHIA, June 30, 2008 — Delaware Investments Global Dividend and Income Fund, Inc. (NYSE: DGF) (the “Fund”), a closed-end management investment company, today announced the preliminary results of its tender offer for up to 273,187 shares of its common stock representing up to five percent of its issued and outstanding shares of common stock. The offer expired at 11:59 p.m., New York City time, on Friday, June 27, 2008. Based on current information, approximately 440,959.0000 shares of common stock, or approximately 8.0706 percent of the Fund’s common stock outstanding, were tendered through the expiration date. This total includes shares tendered pursuant to notices of guaranteed delivery. Because the number of shares tendered exceeded 273,187 shares, the number of shares that will be purchased by the Fund will be pro-rated based on the number of shares properly tendered by each shareholder. No more than a total of 273,187 properly tendered shares will be accepted for cash payment at a price equal to the Fund’s net asset value (“NAV”) as of the close of regular trading on the New York Stock Exchange on June 30, 2008. The final number of shares validly tendered and accepted pursuant to the tender offer will be announced at a later date. Payment for shares tendered and accepted is expected to be sent to tendering shareholders within approximately ten business days after the expiration date.

The Fund is a diversified, closed-end fund. The Fund’s primary investment objective is to seek high current income; capital appreciation is a secondary objective. The Fund seeks to achieve its objectives by investing, under normal circumstances, at least 50% of its total assets in income-generating equity securities, including dividend-paying common stocks, convertible securities, preferred stocks, and other equity-related securities of U.S. and foreign issuers. Up to 50% of the Fund’s total assets may be invested in nonconvertible debt securities consisting primarily of government and high-yield, high-risk corporate bonds of U.S. and foreign issuers.

Under normal market conditions, the Fund will invest: (1) at least 50% of its total assets in securities of U.S. issuers; and (2) at least 40% of its assets (including leveraged assets) in securities of non-U.S. issuers, unless market conditions are not deemed favorable by the Manager, in which case the Fund would invest at least 30% of its assets (including leveraged assets) in securities of non-U.S. issuers. The Fund may not, however, invest more than 50% of its total assets in the securities of any developed or emerging markets foreign country.

The Fund utilizes leveraging techniques in an attempt to obtain a higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

In 1995, the Fund implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted and, if necessary, a return of capital.
