**DELAWARE ENHANCED GLOBAL DIVIDEND AND INCOME FUND ANNOUNCES THE  
RETIREMENT OF PATRICK P. COYNE**

**PHILADELPHIA, May 22, 2015** — Today, Delaware Enhanced Global Dividend and Income Fund (the “Fund”), a New York-Stock Exchange-listed closed-end management investment company trading under the symbol “DEX,” announced that effective May 23, 2015, Patrick P. Coyne has resigned as Trustee, President, and Chief Executive Officer of the Fund in connection with his previously announced retirement from Delaware Investments, the Fund’s investment manager. Effective May 23, 2015, Roger A. Early, currently the Managing Director, Head of Fixed Income Investments, will replace Mr. Coyne as the Fund’s President and Chief Executive Officer. As previously announced, Thomas L. Bennett succeeded Mr. Coyne as Chairman of the Fund’s Board on March 1, 2015. The team responsible for managing the Fund’s assets will remain in place.

The Fund’s primary investment objective is to seek current income, with a secondary objective of capital appreciation. The Fund invests globally in dividend-paying or income-generating securities across multiple asset classes, including but not limited to: equity securities of large, well-established companies; securities issued by real estate companies (including real estate investment trusts and real estate industry operating companies); debt securities (such as government bonds; investment grade and high risk, high yield corporate bonds; and convertible bonds); and emerging market securities. The Fund also uses enhanced income strategies by engaging in dividend capture trading; option overwriting; and realization of gains on the sale of securities, dividend growth, and currency forwards.

Under normal market conditions, the Fund will invest: (1) at most 60% of its net assets in securities of U.S. issuers; and (2) at least 40% of its net assets in securities of non-U.S. issuers, unless market conditions are not deemed favorable by the Manager, in which case, the Fund would invest at least 30% of its net assets in securities of non-U.S. issuers. In addition, the Fund uses leveraging techniques in an attempt to obtain higher return for the Fund. There is no assurance that the Fund will achieve its investment objectives.

The Fund has implemented a managed distribution policy. Under the policy, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted, and if necessary, a return of capital.
